## The **Essentials**

These key features are highlighted on each product page, where applicable:

- **Ceramic disc**  
Using the latest technology for smooth and consistent operation.
- **Co-ordinating shower**  
If you are looking for complete co-ordination, some of our taps can be paired with a complementary shower.
- **Wastes**  
All our mono basin mixers come with a waste as standard, unless stated otherwise
- **Water Pressures**  
Make sure you know the water pressure in your bathroom before you choose your tap. They sometimes require higher pressure to operate efficiently.

## Flow restrictors

### ecoflow

We all need to reduce the amount of water we use – the average person in the UK uses approximately 150 litres of water every day. This level of consumption is unsustainable and reducing the amount of water we use is no longer a choice – it is essential.

We offer a range of ‘Eco-Flow’ water regulators, which restrict the maximum flow rate to 6 litres per minute to help save water. The flow regulators are a quick and cost effective way to reduce your water usage.

**Flow Regulator**  
Suitable for use with basin pillar taps  
FR201 **£6.00** pair

**Flow Regulator**  
Suitable for use with traditional style mono basin fittings  
FR203 **£8.00** each

**Flow Regulator**  
Suitable for use with any shower hose options  
FR004 **£10.00** each

**Flow Regulator**  
Suitable for use with mono basin fittings  
FR005 **£14.00** pair
