Infrared

Heating Panels

Natural Energy

Premier offers the latest in modern space heating, ideal for both domestic and commercial environments. There is ever increasing market awareness of the benefits and superior levels of comfort that infrared heating offers.

Provides reduced CO₂ emissions due to greater efficiency, our state of the art carbon crystal element offer silent – running and total controllability, with typically 30% saving compared to convection heat.

How it works

Infrared heaters are the ideal way to heat a room by emitting the heat energy into the walls floor and objects, which then radiate the heat out to give an even comfortable room.

Features

- No moving parts, no maintenance
- Silent running
- Stylish contemporary design in lightweight satin aluminium panels
- Easy installation vertically or horizontally

Suitable for domestic and commercial applications
